

EXECUTIVE BIOGRAPHY

Patrick Ritto
 Vice President, Engineering
 Qualcomm Enterprise Services™
 Qualcomm Incorporated

Patrick Ritto is vice president of engineering for Qualcomm Enterprise Services™ (QES™). QES is the Qualcomm division chartered with delivering strategic wireless solutions that leverage proven, secure technology to deliver a competitive advantage and measurable long-term business value across the enterprise.

As a member of the QES executive team, Ritto is responsible for establishing the technical strategy and leading the hardware and software engineering, R&D, and quality assurance teams for both the Transportation & Logistics and Global Smart Services businesses.

Ritto is a 20-year veteran of the enterprise software and cloud-based services industries. Prior to joining QES, he was chief technology officer and vice president of engineering for Nirvanix, Inc., where he oversaw all development, operations, and customer support for the company's global storage delivery network, an industry-leading cloud storage platform. He previously held executive and senior leadership positions with Internap Network Services, VitalStream, Inc., Overland Storage, Inc., and Oracle Corporation.

Ritto holds Bachelor and Master of Science degrees in Computer Science and Electrical Engineering from the Massachusetts Institute of Technology (MIT).
