

Small Business Subcontracting Plan

Qualcomm's Small Business Subcontracting Plan has been established to promote participation of small business concerns when sourcing suppliers to fulfill subcontracting requirements.

Recognizing the value of small business suppliers, it is our intent to place a fair proportion of our total purchases of goods and services with all classification types of small business concerns. These concerns include, small, disadvantaged, veteran-owned, and businesses situated in a HUBZone.

In the acquisition of supplies and services, a good faith effort shall be made to encourage participation by such small business concerns.

In dealing with established and potential suppliers, small business concerns shall be afforded an equitable opportunity to compete for contracts that are within their capabilities to perform.

Guidelines established under our negotiated contracts, including our Corporate Procurement Policies and Procedures, ensure full compliance with public laws that relate to all classification types of small business concerns.

In accordance with these guidelines, Qualcomm's Small Business Subcontracting Plan has been established.
