Intelligent entertainment

The 7th Gen Qualcomm® AI Engine, our fastest, most advanced ever, is aided by our next-gen Qualcomm® Hexagon™ Processor for faster, more intuitive AI experiences. AI-powered Video Super Resolution (VSR) provides digital zoom capabilities for sharp, clear footage, even from far away. And now you can capture crisp photos—even while masked—with Camera Deep Learning Face Detect (DLFD), offering ultra-accurate autofocus based on 300 facial landmarks.

- 7th Gen Qualcomm AI Engine is a first to the Snapdragon 7-Series Platform
- Up to 30% improved AI performance

Larger-than-life capture

Remember every moment in vibrant color and striking clarity with up to 200MP photos—a Snapdragon 7-series platform first! Our Triple ISP captures photos from three cameras at once, rendering a full range of footage from wide angle to macro. Pair this incredible detail with 4K HDR+ to snap moments full of luminosity and contrast, or record vivid 4K HDR video.

- Qualcomm Spectra™ Triple 14-bit ISP enables simultaneous triple capture
- Snapdragon® Low Light Photo (LLP) provides beautifully crisp noise reduction for images and videos
- Up to 2.5 Gigapixels per second computer vision ISP (CV-ISP)

Vault-like security

Reinforcing these incredible on-device experiences are two more Snapdragon 7-series firsts that help keep your data protected. A dedicated Trust Management Engine achieves heightened security and provides additional Root of Trust for apps and services, while Android Ready SE is the new standard for digital car keys, drivers' licenses, and more.
