

Qualcomm's 5G Handset Licensing Program

For a license to Qualcomm's
cellular standard-essential patents

3.25%

Royalty of the net selling price
of multi-mode handsets

2.275%

Royalty of the net selling price
of single-mode handsets

All programs include a per device cap

30+ years licensing

Qualcomm has been actively licensing patents to the mobile handset industry for 30+ years.

5G leadership

Qualcomm's industry-leading innovations enable the core functionality of 5G – speed, ultra low latency, high reliability, massive capacity, new frequencies, and more.

With over 150 5G licensing agreements, our 5G innovations are the most widely licensed in the industry – including multiyear patent license agreements with every major handset OEM.

SEP-only license

We offer 5G handset licenses covering our worldwide portfolio that includes our cellular standard-essential patents up to and including Release 16 of the 3GPP specifications at royalty rates of:

- 2.275% of the net selling price of branded single-mode 5G handsets, and
- 3.25% of the net selling price of branded multi-mode (3G/4G/5G) handsets.

Portfolio license

We offer 5G handset licenses covering our worldwide portfolio that includes our cellular standard-essential patents, other non-cellular standard-essential patents and patents not essential to standards at royalty rates of:

- 4% of the net selling price for branded single-mode 5G handsets, and
- 5% of the net selling price for branded multi-mode (3G/4G/5G) handsets.

Rights under Qualcomm's non-essential patents may be negotiated at Qualcomm's discretion based on several considerations, including whether the counter-party is competing fairly with Qualcomm's licensees.

Device cap

All 5G handset licensing programs include a per device cap.

For more information about licensing our 5G Handset Program, connect with us by clicking [here](#).

Qualcomm's 5G Handset Licensing Program is consistent with our Fair, Reasonable and Non-Discriminatory (FRAND) commitments, European Telecommunications Standards Institute (ETSI) Intellectual Property Right (IPR) policy and industry practice.
