

# Examples of royalties for smartphone price points

Applying OEM branded 3G/4G/5G multi-mode SEP rates

Read [Qualcomm 5G NR Royalty Terms Statement](#) for more details

## Smartphone royalties cap at \$400 selling price\*

\* Royalties are generally based upon a percentage of the wholesale (i.e., licensee's) selling price of complete licensed products, net of certain permissible deductions (including transportation, insurance, packing costs and other items). Cap revised to \$400, effective April 1, 2018.
