

per NARVINGER
Head of Product Line
Radio access networks

Per Narvinger is Head of Product Line Radio Access Networks at Ericsson AB. He has been responsible for LTE RAN since mid 2012 and is, as of 2016, also responsible for defining Ericsson's 5G RAN portfolio as well as 2G and 3G RAN.

Per has been with Ericsson since 1997 and held positions in Research, R&D, Product Management and Sales. He was working in standardization when 3GPP was formed and has been part of bringing both 3G and 4G to the market. In his regional sales roles he has been supporting both Telstra in Australia and Vodafone's global organisation in Madrid.

Per holds an MSc in Electrical Engineering from the Royal Institute of Technology (KTH) in Sweden. His MSc diploma includes graduate studies at Stanford University in California, U.S.
