Qualcomm® QCA9377 Wi-Fi/Bluetooth SoC

High performance, low power single-stream 11ac MU-MIMO and Bluetooth® 4.2 in a single-chip solution.

QCA9377 combines advanced 1x1 dual-band 802.11ac MU-MIMO Wi-Fi + Bluetooth 4.2 in a high performance, low power, small form factor System-on-Chip (SoC).

Designed to deliver superior integration of WLAN and Bluetooth low energy technology in a single-chip solution, the QCA9377 SoC offers both low power dual-band (2.4 & 5GHz), 1-stream (1x1), 802.11ac MU-MIMO and Bluetooth 4.2 technologies.

QCA9377 supports high-speed Wi-Fi connectivity and enriched media experiences for virtually all connected devices and is optimized for energy efficiency, which is critical to extending the battery life of portable devices.

With advanced WLAN/Bluetooth coexistence algorithms, QCA9377 supports superior rate-over-range throughput and low-latency performance in real-world operating conditions.

The QCA9377 SoC is available in two variants:

- QCA9377-3 - supports a low-power SDIO 3.0 interface for WLAN and a UART/PCM interface for Bluetooth.
- QCA9377-7 - supports a low-power USB 2.0 interface for WLAN and a USB 1.1 interface for Bluetooth.

Solution Highlights

Advanced 802.11ac combo SoC

Advanced 802.11ac features such as MU-MIMO, Host wake-on-wireless and ARP (Address Resolution Protocol) offloading enable the WLAN link to remain associated for extended periods for additional power savings.

Supports dual-mode Bluetooth version 4.2

QCA9377 supports Bluetooth for Class-1 and Class-2 transmissions without requiring an external power amplifier.

Advanced WLAN/Bluetooth coexistence and concurrent RX

WLAN/Bluetooth coexistence allows for superior rate-over-range throughput and low-latency performance in real-world operating conditions.

Power saving techniques for low power consumption

Both WLAN and Bluetooth power management utilize advanced power saving techniques such as:

- gating clocks to idle or inactive blocks
- voltage scaling
- fast start and settling circuits
- active duty cycles
- processor frequency scaling
