

Official Rules

1. To Enter. The Qualcomm Innovation Fellowship (the "Fellowship") is open to PhD students at institutes of TU Munich, TU Dresden and Institut Eurecom, , specified in the Nuremberg section of <http://www.qualcomm.com/innovationfellowship> (the "Website")

Three Fellowships will be awarded to one student each for submitting the most innovative proposals. The student must be enrolled in the PhD program for the entire 2013-14 academic year (acceptance into the PhD program starting Fall 2013 is adequate). Thus, each student needs to have begun the PhD program by Fall 2013 and will graduate with PhD only after Spring 2014.

The academic department of each winning student will receive €10,000 in the 2013-14 academic year. To apply for the Fellowship, each student must submit the registration materials described on the Website by February 25, 2013. Registration will close at 11:00 pm CET on February 25, 2013. Entrants must fully complete the registration materials specified on the Website (collectively the "Application" or "Applications"). No other method of registration will be accepted.

Application materials will not be returned. Proof of submission of an Application is not considered proof of delivery or receipt of such Application by Sponsor. Sponsor is not responsible for technical, hardware or software malfunctions, lost or unavailable network connections or failed, incorrect, inaccurate, illegible, incomplete, garbled, lost, misdirected, intercepted, late, or delayed Applications, or Applications or other communications not otherwise received by Sponsor, or other technical problems related to Applications. Sponsor, in its sole discretion, reserves the right to disqualify any person who tampers with the entry process, or who otherwise violates these Official Rules.

2. Sponsor. This Fellowship is sponsored by Qualcomm Technologies Inc., headquartered at 5775 Morehouse Drive, San Diego, CA 92121, or one of its affiliates, at Qualcomm's sole discretion.

3. Cash Awards. Funds will be awarded to the university academic departments of the winning students. The winning students may come from any of the three participating universities, and a university may have zero, one or more than one winning student. The department of each winning student will receive €10,000 to fund the student's fellowship and other research expenses starting in the academic year of 2013-14 (total prize of three students × €10,000 = €30,000). The funds can be allocated by the departments in their sole discretion. Sponsor will also provide mentors to the Fellowship winners, and the winners may have the opportunity to participate in collaborative activities and/or internships with Qualcomm Research & Development.

Only the advertised number of Fellowships will be awarded. All taxes, including, without limitation, all federal, state and local taxes, and international tariffs, are the sole responsibility of each individual winner.

The projects of Fellowship winners will be re-evaluated after one year for further funding by Sponsor; however Sponsor shall have no obligation to continue or increase the amount of the Fellowship or to provide any future funding or assistance.

4. Intellectual Property. Entrants warrant that their Applications do not violate or infringe the rights, including, without limitation, copyrights, trademark rights or rights of publicity/privacy, of any third party, and that any pre-published material used in the Applications are properly cited.

Any Intellectual Property ("IP") generated by the projects of Fellowship winners during the Fellowship period will be retained by the students and/or their university according to the winners' university policies.

Preparation of the Application may produce ideas that are the IP of the entrants and/or universities. Participation in the Fellowship competition may require disclosure of these ideas to persons who are not under a duty to maintain confidentiality (including Sponsor and the judges). Sponsor reserves the right, but is not obligated, to publish information about the winning Applications on its website or in other publications. If any entrants are concerned about the protection of IP in such a setting, they are urged to consider these issues with qualified advisors to make an informed decision before submitting an Application.

Each Applicant acknowledges that Sponsor has a large research and development department with many projects currently in active development or on roadmaps. Each Applicant further acknowledges that Sponsor may already be conducting research that is similar to the research described in an Application, and that Sponsor's sponsorship of this Fellowship shall not restrict Sponsor's right or ability to sell, license, use, exploit, develop or otherwise deal anywhere in any product or service of any kind.

5. Winner Selection and Notification. Finalists will be notified in late March, 2013. Subsequently, the finalists will make presentations of their proposals to a judging panel in April or May 2013. The finalist presentations will be part of the judging criteria. Exact dates and location will be posted on the Website.

All Applications will be ranked by a panel of experts consisting of Qualcomm Research & Development researchers, whose decisions are final on all matters relating to the Fellowship. Winners will be announced on the Website following the finalist presentations, and by an email sent to the email addresses specified on the Application. The date and location of a subsequent awards ceremony may be announced later. Fellowship winners may be required to sign and return a publicity release, in the form provided by Sponsor.

6. General Conditions. Sponsor has the right in its sole discretion to modify this Fellowship competition and these Official Rules if it cannot be completed as originally contemplated due to conditions beyond Sponsor's control.

By applying for the Fellowship, entrants agree: (i) to be bound by these Official Rules and the decisions of the judges and (ii) to be contacted by Sponsor by telephone, mail or email regarding this Fellowship. All applicable federal, state and local laws and regulations apply (including those relating to data protection). The Fellowship competition is governed by (a) the laws of the state of Germany with respect to entrants from TU Munich and TU Dresden and (b) the laws of the state of France with respect to entrants from Institut Eurecom.
