

Qualcomm is committed to changing the world—through innovations in wireless technology and through our efforts to do business more responsibly and sustainably.

We define sustainability as a strategy that drives long-term growth and profitability through the inclusion of environmental, social and corporate governance issues in our business model; specifically as they relate to our key spheres of influence: our workplace, our supply chain and local communities, as well as our industry and the public policy realm. We've integrated sustainability throughout our Company, from our daily operations to our executive leadership and our Board of Directors. Sustainability factors into our strategic decisions, our product design and the everyday thinking and behavior of our employees worldwide.

Our sustainability mission:

- Develop technology that positively transforms the world
- Operate with the highest ethical standards
- Be a great place to work
- Be good corporate citizens wherever we conduct business
- Continue to drive value for our stockholders

Specifically, **our sustainability commitments** are:

Our Governance

- We demonstrate accountability, transparency, integrity and ethical business practices throughout our operations and interactions with our stakeholders.
- We continually improve our sustainability governance to include better transparency, communications, reporting metrics and measurable goals.
- We increase awareness and visibility of human rights principles within our Company, as well as with contracted vendors and key suppliers.
- We regularly review our corporate governance principles and practices to ensure they serve the best interests of our stockholders and other stakeholders.
- We require all employees to review and acknowledge our Code of Business Conduct and our Foreign and Corrupt Practice Act and Anti-Corruption Policy.

Our Products & Supply Chain

- We invent technology that helps to empower people and enhance quality of life around the globe.
- We meet or exceed industry standards for product responsibility and supply chain management.
- We develop products taking into account their environmental and social impact.
- We build trust in the use of wireless technologies by implementing and enabling responsible information privacy and data security practices.
- We require our semiconductor suppliers to act in accordance with the Electronic Industry Citizenship Coalition Code of Conduct, and we expect them to obtain materials from environmentally and socially responsible sources, including conflict free sources within the Democratic Republic of the Congo (DRC) and adjoining countries.

Our Facilities, Workplace & People

- We aim to increase diversity at all levels of our organization and are actively developing and implementing initiatives to address gaps in our talent pipeline.
 - We are committed to fair and equitable pay for all of our employees.
 - We offer opportunities for training, growth and advancement for all of our employees and promote employee wellness, work/life balance and overall health.
 - We provide a safe and healthy work environment.
 - We employ strategies to responsibly manage water use, lower greenhouse gas and other significant air emissions, optimize energy efficiency and materials use, reduce waste, and minimize hazardous substances throughout our operations.
-

Qualcomm Sustainability Policy

Our Society

- We grow strategic relationships with a wide range of local organizations and programs that develop and strengthen communities worldwide.
- We create sustainable advanced wireless technology projects that strengthen economic and social development, with a focus on education, entrepreneurship, healthcare, the environment, and public safety.
- We provide philanthropic support to areas of need in alignment with Qualcomm's growth, and increase employee volunteerism through innovative programs with local nonprofit organizations globally.
- We are committed to improving science, technology, engineering and math (STEM) education at all levels.

Our [Qualcomm Sustainability Report](#) and [sustainability website](#) highlight the various sustainability programs and initiatives we provide and detail our accomplishments and challenges. We set specific sustainability goals to focus our efforts, gauge our progress and report more transparently. Our sustainability goals are publicly available through our website.
